

WCB Control Tops

PRODUCT HIGHLIGHTS

WHY SPX FLOW?

The Waukesha Cherry-Burrell brand Control top brings to market one of the most durable and user-friendly control tops available. The full featured control tops allow customers to easily integrate the SPX FLOW valves into their process. SPX FLOW offers a control

top that is quick and easy to set up, has an extremely durable stainless steel connection to the actuator, and helps maintain a low cost of ownership by using standard industry-wide available components. When it comes to know-how, experience and product range within the field of hygienic valves and control tops, you won't find a better partner than SPX FLOW.
